**Feeding Method / Guidelines:**

- A certain methodology has to be adopted when feeding Latis Gold 38% Protein. This is as follows:
  1. **Feeding method:** Broadcast the feed evenly along the dikes.
  2. **Feeding time:** Divide the feed quantity for daily feeding 4-5 times per day.
  3. **Feeding rate:** Daily Feeding weight is adjustable according to prawn size, stocking density, water quality, temperature & feeding conditions.
- Quality feed along with special emphasis on biosecurity, pond and health management results in successful harvest with high profits

**Caution:**

- Feed should be stored in a cool & dry place
- Once the bag is opened, use the feed as soon as possible

FEED COMPOSITION TABLE

| FEED NO. | FEED TYPE | TYPE       | CRUDE PROTEIN MIN % | FAT MIN % | FIBER MAX % | MOISTURE MAX % |
|----------|-----------|------------|---------------------|-----------|-------------|----------------|
| 1        | CRUMBLE   | STARTER    | 38                  | 5.5       | 4           | 11             |
| 2        | CRUMBLE   |            | 38                  | 5.5       | 4           | 11             |
| 3        | PELLET    |            | 38                  | 5.5       | 4           | 11             |
| 3P       | PELLET    | PRE GROWER | 38                  | 5.5       | 4           | 11             |
| 4S       | PELLET    | GROWER-1   | 38                  | 5.5       | 4           | 11             |
| 4L       | PELLET    | GROWER-2   | 38                  | 5.5       | 4           | 11             |

FEEDING CHART TABLE

| FEED NO. | FEED TYPE | TYPE       | AVG. BODY WEIGHT OF SHRIMP (GMS) | % FEED     | FREQUENCY  |
|----------|-----------|------------|----------------------------------|------------|------------|
| 1        | CRUMBLE   | STARTER    | 0.02 - 0.5                       | 60 - 35%   | 2 TO 3     |
| 2        | CRUMBLE   |            | 0.5 - 1.4                        | 35 - 7.0%  | 3 TO 4     |
| 3        | PELLET    | PRE GROWER | 1.4 - 4.0                        | 7.0 - 4.5% | 3 TO 4     |
| 3P       | PELLET    |            | 4 - 8                            | 4.5 - 3.8% | 4 TO 5     |
| 4S       | PELLET    |            | GROWER-1                         | 8 - 14     | 3.8 - 2.4% |
| 4L       | PELLET    | GROWER-2   | 14 - HARVEST                     | 2.4 - 1.8% | 4 TO 5     |

**Maximum protein**  
**Higher growth**

## Let's welcome prosperity with new thinking

Anmol Feeds Pvt. Ltd. has been consistently growing and developing since its birth in 2000. It presently has 7 manufacturing units with presence in 20 states in India and neighbouring countries like Bangladesh, Nepal & Bhutan. It is has a vision far and beyond.

We understand that today's world is a constantly evolving one and keeping pace with the times is the way to be. This is the inspiration behind the birth of Nouriture – a name that is proud of its progressive, technology-driven, and most importantly, service-driven approach. Nouriture meets the needs of livestock farmers and aids sustainable growth through profitability for all stakeholders. With the principle of farm level assistance, we work towards achieving newer heights of prosperity with innovative solutions and techniques. We truly live by 'ek nayi soch'.

**Latis Gold 38% Protein** is a vannamei feed that contains no antibiotics. It is designed with a special formula and is made from the best quality imported & domestic ingredients, using the most advanced US technology.

**Latis gold** 38% PROTEIN  
VANNAMEI FEED Nutritionally balanced Latis Gold vannamei feed with 38% protein for faster growth of shrimp & its fingerlings

**LATIS GOLD**  
38% PROTEIN  
ADVANTAGE

There are numerous benefits when you feed Latis Gold 38% Protein to your shrimps. The notable benefits are as follows:

- Faster growth
- Better FCR
- Enhances Immune System
- Better Appetite
- Higher Profits

## The right combination of feed ingredients for best growth of the shrimp
